Professional Summary

Results-driven MCA graduate and Android Developer with hands-on experience building production-grade mobile and web applications. Proven ability to deliver end-to-end features across **Java, Android, .NET, React, and PHP** — from UI design to database integration. Consistently ships clean, user-centric solutions within Agile teams and cross-functional environments.

Professional Experience

Android Developer Intern

Shreecore Financial Technology Pvt. Ltd., Ratnagiri

Jan 2025 – Jun 2025

Onsite

- Engineered **10+ XML-based UI screens** for "Convenio" — a home-services booking app — reducing layout inconsistencies by standardizing a reusable component library.
- Implemented **real-time Firebase booking engine** with dynamic time-slot logic and cart flow, cutting manual booking errors to near zero.
- Accelerated feature delivery by **30%** through active participation in Agile sprints, daily stand-ups, and collaborative task breakdowns with a 4-person dev team.
- Owned the **full mobile SDLC** — from wireframe to production build — gaining end-to-end exposure to design, development, QA, and deployment on Google Play.

Key Projects

Convenio — On-Demand Home Services App

Java (Android Studio), Firebase

- Delivered a **full-featured Android booking platform** with real-time availability, cart management, and Firebase-backed payment confirmation — serving as the primary developer on UI/UX and business logic.

Sportswear Wardrobe — E-Commerce Web App

PHP, JavaScript, MySQL (XAMPP)

- Built a **fully functional e-commerce storefront** with categorized product listings, session-based shopping cart, and an admin order management dashboard — handling end-to-end CRUD operations via PHP and MySQL.

Blood Bank Management System — Desktop App

ASP.NET, C#, SQL Server

- Designed and developed a **role-based desktop application** managing donor registration, blood inventory tracking, and request fulfillment workflows — reducing manual record errors through structured SQL Server data integrity.

Technical Skills

- Languages:** Java, C#, JavaScript, PHP, SQL
- Frameworks & Libraries:** ASP.NET, React, Laravel, Android SDK
- Databases:** MySQL, Firebase Realtime DB, MongoDB, SQL Server
- Web Technologies:** HTML5, CSS3, REST APIs
- Tools & Platforms:** Git, Android Studio, VS Code, Figma, Power BI, Tableau
- Methodologies:** Agile/Scrum, SDLC, UI/UX Design

Education

Master of Computer Applications (MCA)

Finolex Academy of Management and Technology

CGPA: 8.92 / 10

Aug 2023 – Jun 2025

B.Sc. Information Technology

R.P. Gogate College & R.V. Jogalekar College, Ratnagiri

CGPA: 8.70 / 10

Jun 2020 – Apr 2023

Certifications

- Cyber Security & Privacy — *NPTEL*
- GenAI-Powered Data Analytics — *TATA*
- Software Engineering — *Accenture*
- NoSQL Databases — *Great Learning*
- UI/UX Design by Example — *Infosys Springboard*

Achievements

- Ranked 3rd** in Web Development at inter-college tech fest, competing against 20+ teams.
- Active practitioner of **Graphics Design & Video Editing** — applied in internship UI assets and portfolio branding.
